

MAHMOUD FAYEZ MUNIR SAQALLAH

MERN Stack Developer | Flutter Developer | Data Systems Specialist

Phone: 0599663952 Email: adamsakallh@gmail.com DOB: 26/08/2003

Portfolio: mahmoud-saqallh-oahp.vercel.app

ACADEMIC & PROFESSIONAL PROFILE

Versatile Software Engineer and Data Specialist holding a B.Sc. in Multimedia and Web Development from the Islamic University of Gaza. Demonstrates a comprehensive background spanning full-stack web engineering, cross-platform mobile application development, and large-scale data system administration. Proven ability to architect resilient digital solutions using React.js, Next.js, Node.js, Express, and Flutter, paired with practical database modeling across MySQL, MongoDB, and Firebase. Experienced in deploying administrative and technical systems within healthcare institutions and community organizations. Seeking to leverage strong foundational knowledge in web architecture, software engineering principles, and quantitative data analysis to pursue advanced postgraduate studies (Master's level) in Computer Science and Information Technology.

EDUCATION & ACADEMIC BACKGROUND

Islamic University of Gaza (IUG)

Gaza, Palestine

Bachelor of Science (B.Sc.) in Multimedia and Web Development

Core Academic Coursework: Web Application Architecture, Advanced Database Management Systems (RDBMS & NoSQL), Object-Oriented Programming (OOP), Data Structures & Algorithms, User Experience (UX/UI) Engineering, Software Engineering Methodologies, Interactive Digital Media, Multimedia Compression & Processing, Web Security Principles.

TECHNICAL SKILLS & DOMAIN EXPERTISE

FRONTEND ENGINEERING

React.js, Next.js, HTML5, CSS3, JavaScript (ES6+), Modern UI Frameworks, Responsive Web Design, Web Accessibility (a11y).

BACKEND ARCHITECTURE & APIS

Node.js, Express.js, RESTful API Design, JWT Authentication, Microservices Concepts, Server-Side Rendering (SSR).

MOBILE APPLICATION DEVELOPMENT

Flutter SDK, Dart Programming, Cross-Platform Architecture, Mobile State Management, Native Device Integration.

DATABASE & DATA SYSTEMS

MongoDB, MySQL, Firebase Firestore, Schema Normalization, Query Optimization, Data Validation & Archiving.

PROFESSIONAL & VOLUNTEER EXPERIENCE

Web Developer & IT Systems Specialist

VOLUNTEER SERVICE

2021 – Present

Public Service Hospital

- Contributed as a volunteer web developer and IT specialist, designing and maintaining internal web interfaces to streamline healthcare operations.
- Provided technical oversight for database management systems, ensuring seamless data flow, data security, and uninterrupted system availability.

PROFESSIONAL EXPERIENCE (CONTINUED)

Data & Information Systems Specialist

2021 – Present

Hamad City

- Oversee large-scale data entry operations, ensuring rigorous accuracy standards and systemized validation protocols for municipal records.
- Organize, clean, and archive multi-field datasets to support management decision-making and automated reporting workflows.
- Designed standardized data collection templates that significantly reduced data input errors and processing cycle times.

Data Records & Archives Specialist

2021 – Present

Al-Daraj Women's Center

- Managed administrative databases and social aid beneficiary registries using secure digital storage practices.
- Constructed analytical summary reports and updated digital archives to track institutional program reach and community outreach metrics.

KEY PROJECTS & SOFTWARE SYSTEMS

Full-Stack MERN Enterprise & Web Applications

[React.js](#), [Node.js](#), [Express.js](#), [MongoDB](#)

Architected responsive full-stack applications with dynamic user interfaces, RESTful API backend integrations, persistent database schemas, and robust security protocols including JWT role-based access control and encrypted payload handling.

Cross-Platform Flutter Mobile Applications

[Flutter](#), [Dart](#), [Firebase](#), [Cloud Firestore](#)

Engineered high-performance mobile applications with real-time database synchronization, dynamic user authentication, offline caching capabilities, and scalable state management architectures for smooth cross-platform delivery on iOS and Android.

High-Performance Next.js Web Platforms

[Next.js](#), [TypeScript](#), [Tailwind CSS](#), [Vercel](#)

Developed production-ready web platforms leveraging Server-Side Rendering (SSR) and Static Site Generation (SSG) for maximum search engine optimization, fast load speeds, and efficient image and data delivery pipeline setups.

Healthcare & Administrative Data Pipeline Systems

[MySQL](#), [MS Access](#), [Excel Analysis](#), [Data Processing](#)

Created structured relational database schemas and automated data verification tools to clean, transform, and structure institutional records across healthcare and municipality operational frameworks.

LANGUAGE PROFICIENCY & SOFT SKILLS

Arabic

[Native / Mother Tongue](#)

English

[B1 Level \(Intermediate – Professional & Academic Working Proficiency\)](#)

KEY PERSONAL & ACADEMIC ATTRIBUTES

Strong analytical problem-solving abilities, high adaptability in crisis conditions, dedicated teamwork and institutional collaboration, proactive self-learning capacity, and a clear motivation towards academic research and technological advancement.
